

SMARTCAB ED AL

EN 60 529 - IP55
EN 62 262 - IK10
EN 62 208 ed.2:2012

The Outdoor Cabinet SMARTCAB ED AL is designed for the deployment and operation of active technologies in CCTV, industrial and measurement applications. Constructed from AlMg3 aluminum alloy, the cabinet offers exceptional mechanical strength, corrosion resistance and an extended service life in demanding outdoor and industrial applications. It can be outfitted with a fan and a heating element to maintain optimal operating conditions. The configuration may include a power panel featuring protective circuit breakers and a residual current device, along with a service socket. The cabinet is well-suited for the installation of active components such as PoE switches, power supplies, UPS, measurement and control units, and various other industrial technologies.

- Easy installation on a pole or wall thanks to integrated brackets
- AlMg3 aluminum alloy ensures high durability while maintaining a low weight
- Secure locking option
- Potential for the installation of a power panel
- Inputs 6× PG 16 with 4 × 3 mm insert
- Fan and heating element selection
- Ventilation equipped with a G4 filter
- Perforated mounting panel

Technical Specifications	
Inputs	6× PG 16
Ingress Protection	IP55
Impact Protection	IK10
Material	AlMg3
Surface Treatment	powdered exterior paint RAL 7035
Dimensions (H × W × D)	650 × 400 × 230 mm
Weight	8.6 kg

Ordering Codes	
857H.00/003X	SMARTCAB ED AL
