

The MUC Cube 320 is a purpose designed mini access box, or boundary box, that will cater for low fibre count connections. The MUC Cube 320 is normally used to connect MDU's or single use Clients from the network.

- ▶ Ideal for low density traffic installations. Depending on splitter configuration, up to 12 clients can be connected
- ▶ The unit can be split between base or pan and chamber section to allow installation over existing networks
- ▶ Low footprint unit 250 × 230 mm
- ▶ No tools required for assembly – press-on clips complete the assembly
- ▶ Duct ports are sealed with rubber grommets allowing interface with Multi-Duct and/or MicroDuct. No foaming agent or additional sealants are required
- ▶ Knock-down design allows high packing density for transport savings
- ▶ Hingeless slide-in lid with nylon lanyard

TECHNICAL SPECIFICATIONS

Grommets (type and number of used grommets)	cable inlet
UV Resistance	yes
Material	polypropylen
Color	black RAL 9005
Dimensions (H × W × D)	250 × 230 × 310 mm
Weight	3.5 kg
